Hay, Straw & Commodity Storage Program: Producer Report

Deadlines for Producer Reports

Producers must complete all relevant questions on the Producer Report before receiving cost-share funds through the Hay, Straw, & Commodity Storage Program.

This form is for the Administrator to keep on-file for each Producer receiving cost-share funds, and should aid in filling out the reports for this program.

This information will be used to help the Agricultural Development Board evaluate the economic impact of model programs on Kentucky's agricultural economy.

Administrator Information

County: _____

Application Number: _____

Percentage Payment: _____

General Information

Producer Name: _____

Farm Serial Number (FSN): _____

Social Security Number/TIN: _____

Investment Area/Type of Storage, circle all that apply:
Hay **Straw** **Grain** **Commodity**

List the items for which cost-share is being requested:

_____

Total Project Cost: _____

Total Cost-share Requesting: _____

Farm Size of the FSN: _____

Select livestock type and average herd size (e.g. Beef Cows 24):

Beef Cows _____ **Stockers** ____ _____

Dairy Cows _____ **Dairy Heifers** _____

Horses _____ **Sheep** _____

Goats _____ **Other livestock type and size** _____

Total acres of: **Hay** _____ **Grain** _____

Hay or Straw Project:

Return this form before receiving 90% payment.

Total Project Cost for this cost-share investment: _____

90% of Cost-share Request for this cost-share investment: _____

Structure built for this project: **NEW** **RENOVATED**

Type of structure, circle only one:

Pole / Post-Frame **Steel Frame**

Steel Arch **Tarp Covered Hoop**

Other _____

Size of structure built or renovated (in feet):

Length _____ **Width** _____ **Inside Height** _____

Current Method for Crop Storage (before cost-share structure):

Stack & Cover, on rock & elevated pad **Stack & cover, on ground**

Net wrap, on ground or pad **Plastic wrap, on ground or pad**

No wrap, no cover, on ground **None, adding new production**

Acres of Hay Harvested:

Grass Hay _____ **Legume Hay** _____

Mixed Hay _____ **Straw** _____

Average Annual Yield (tons/acre):

Grass Hay _____ **Legume Hay** _____

Mixed Hay _____ **Straw** _____

Annual Bales Harvested: **Large Rolls** _____

Small Square Bales _____

Large Square Bales _____

Estimate of Annual Bales Stored Outside Prior to Structure:

Rolls _____ **Square Bales** _____

Type of Hay to be stored:

Grass **Legume** **Mixed**

Bale package to be stored:

Large Round **Large Square** **Small Square**

Estimate of how many bales you usually sell annually:

Rolls _____ **Square Bales** _____

What is your usual selling price? **Large Rolls** _____

Small Square Bales _____

Large Square Bales _____

Expected Purchased Feed Savings ($ per year): _____

Expected Increase in Hay or Straw Sales ($ per year): _____

Other Expected Yearly Savings or added Income (time, labor, quality premiums, etc…):

_____

Hay or Straw Project:

Return this form before receiving 10% payment.

10% of Cost-share Request for this cost-share investment: _____

How many bales does your new facility hold?

Rolls _____ Square Bales _____

Details of this system compared to previous storage method:

Amount Stored in New Facility: Rolls _____ Square Bales _____

Number of Animals, days fed (if applicable): _____

Production Information
Average daily gain: _____

Daily milk production: _____

Nutritional analysis (optional)

Savings Realized through Improvement (circle all that apply):

Less Storage **Better quality hay**

Less Supplement purchased

Purchased Feed Savings ($ per year): _____

Increase in Hay or Straw Sales ($ per year): _____

Other Yearly Savings or added Income (time, labor, quality premiums, etc…):

_____

Grain Project

Return this form before receiving 90% payment.

Total Project Cost for this cost-share investment: _____

90% of Cost-share Request for this cost-share investment: _____

Type of previous grain structure: _____

Size of previous grain structure (in feet):

Bin: Diameter _____ Inside Height _____

Flat Storage: Length _____ Width _____ Inside Height _____

Type of new cost-share grain structure: _____

Size of new cost-share grain structure (in feet):

Bin: Diameter _____ Inside Height _____

Flat Storage: Length _____ Width _____ Inside Height _____

Acres of Grain Harvested:

Corn _____ Soybeans _____

Small Grain _____ Grain Sorghum _____

Average Yields of Grain (in bushels/acre):

Corn _____ Soybeans _____

Small Grain _____ Grain Sorghum _____

Existing grain storage capacity (before cost-share construction) ? _____

How many bushels of grain will be stored annually in this new structure? _____

How long do you generally store the grain? _____

Grain Project:

Return this form before receiving 10% payment.

10% of Cost-share Request for this cost-share investment: _____

Bushels of Grain Stored in the New Structure: _____

Average Harvest Price Captured: _____

Average Price Captured on Stored Grain: _____

How has the new grain structure helped your operation; estimate its financial benefit to your operation:

Other Commodity Storage

Return this form before receiving 90% payment.

Total Project Cost for this cost-share investment: _____

90% of Cost-share Request for this cost-share investment: _____

Type of old commodity storage: _____

Dimensions of old commodity storage (in feet):

Bin: Diameter _____ **Inside Height** _____

Flat Storage: Length _____ **Width** _____ **Inside Height** _____

Type of new cost-share structure, circle only one:

Steel Bin **Building** **Other** _____

Dimensions of structure built or renovated (in feet):

Bin: Diameter _____ **Inside Height** _____

Flat Storage: Length _____ **Width** _____ **Inside Height** _____

What type of commodity will the new structure store? _____

Yearly Tonnage purchased before new structure:_____

Estimated Tons Fed Annually: _____

Other Commodity Storage:

Return this form before receiving 10% payment.

Increased Storage Capacity (if any): _____

Annual Tonnage of Commodity or Feed Purchased, as a result of this investment:
_____

What is your average savings per ton due to the project allowing you to buy in bigger bulk size?
_____

How many hours of labor has/will this facility save you daily? _____
